Digital Health and Prevention:

ADVANCING HEALTH FOR ALL IN SINGAPORE, ASIA, AND BEYOND

Organised by the NUS Centre for Research in Health Systems Performance in collaboration with the World Economic Forum

Zoom | 21 October 2026 (Wednesday), 8:30 - 10:00 AM SGT (UTC +8:00)

Health systems across Asia face mounting pressure from noncommunicable diseases, ageing populations, and rising healthcare costs, yet most remain oriented toward reactive, curative care. Digital health tools offer a promising pathway to shift health systems toward prevention, health promotion, and wellness, but realising this potential requires navigating political, financial, and implementation challenges across diverse contexts.

This Policy Dialogue will introduce and catalyse the collaboration between the **National University of Singapore Centre for Research in Health Systems Performance (NUS CRiHSP)** and the **World Economic Forum (WEF) Health for All initiative on Non-Communicable Diseases (NCDs)** in healthcare transformation. It will also examine how digital health tools can be deployed to strengthen prevention across Singapore and Southeast Asia through expert presentations and a moderated panel discussion with representatives from academia, government/healthcare institutions, and the private sector.

CHAIR

Prof Nicholas Goodwin
Professor of Health Policy
NUS CRiHSP

PANELISTS

Prof Jose M Valderas
Director
NUS CRiHSP

Dr Shyam Bishen
Head
WEF Centre for Health & Healthcare

A/Prof Carolyn Steele Gray
