Course Description

Technology-Enhanced Learning has become an accepted educational tool and platform to support and augment teaching and learning in health professions education. Technology-enhanced learning in health professions education has demonstrated positive learning outcomes, promotes interaction between students/trainees and instructors, and positive assessment outcomes.

This introductory level workshop is designed as an introduction to the topic for beginners and might also be useful as a refresher course for more experienced practitioners.

The workshop will:

1. Introduce technology-enhanced learning models
2. Share a variety of reusable digital learning objects used in undergraduate and postgraduate education, by demonstrating their use at the Yong Loo Lin School of Medicine and National University Health System, Singapore
3. Discuss best practices in technology-enhanced learning

Technology-Enhanced Learning

28th June 2017 (Wednesday) 9.00am—1.00pm

#01-01B, Level 1, Centre for Translational Medicine (CeTM)
