National University Health System

Tham Kum Ying
Associate Professor
Assistant Dean and Head of Phases 2 & 3
Lee Kong Chian School of Medicine
Nanyang Technological University

Course Description

To effectively manage educational programs requires good leadership and managerial skills. Very often, medical and health professionals and educators are given those roles without adequate training and exposure. This course is to introduce the foundational principles and best practices in managing programs and leading educational development.

At the end of the workshop, participants should be able to:

1. Discuss best practices in course management and leadership
2. Apply the principles of good management and leadership to one’s own educational environment to identify strengths, limitations and ways to improve.

Basic of Leading & Managing in Medical Education

19th September 2017 (Tuesday) 1.00pm – 5.00pm
