Course Description

The origin of the word portfolio is interesting. It is the combination of two words: ‘portare’ which means ‘to carry’ and ‘follium’ which means ‘leaf/sheet’. Portfolio is a portable and a living document that collects personal and professional goals, achievements, and reflections in a systematic manner.

In this workshop, our aims are to explore portfolio-based learning and assessment in greater details and answer the following critical questions:

- What is portfolio?
- What is the purpose of portfolio?
- How does the purpose of portfolio influence the content and organisation?
- How can portfolio help me to support student learning?
- How can portfolios be used for assessments?
