

Applications are invited for the post of **RESEARCH FELLOW** in the Centre for Health Services Research, Yong Loo Lin School of Medicine, NUS. This position serves as the nucleus of a team of health services researchers in NUS and successful candidates are expected to build up this new strategic area of research to serve national interest.

### **Duties & Responsibilities**

- To initiate health services research projects
- To support on-going health services research projects in NUS/Singapore
- To report on the areas of need in health services research work in Singapore

### **Requirements**

**Candidates should possess:**

- PhD in health economics or a related field with experience in applying health economic methodologies
- Ability to conduct health services research independently
- Strong communication (verbal and written) skills
- Strong statistical skills with working knowledge in SAS and/or STATA
- A good understanding of study designs for epidemiological and clinical research

Remuneration will be attractive, commensurate with candidate's qualifications and experience.

### **Applications**

Interested candidates should send a detailed curriculum vitae to Ms Norhayati Ehsan at [norhayati@nus.edu.sg](mailto:norhayati@nus.edu.sg) . Only shortlisted candidates will be contacted.

Closing date: 31 December 2009
