IN-HOSPITAL CLINICAL TRAINING MODULE RATING FORM

MODULE 3: COLPOSCOPY AND THE TREATMENT OF CERVICAL DISEASE

Name of Trainee: _____

Current Training Hospital: _____

Name of Training Supervisor: _____

Signature of Training Supervisor: _____

IMPORTANT: It is stressed that this Module should focus on attaining basic competence, and corrective measures, feedback and relevant advice may be given to the candidate on the spot. Therefore, the Assessor may interact with the candidate at an appropriate time.

After observing the candidate with at least 6 patients, please indicate your rating for each of the following attributes by placing a tick in the small box at the bottom right of the appropriate response. Note that the allocation of C, D or E indicates unsatisfactory performance for that section.

1 Taking history

Obtained all of the pertinent information in a logical, systematic and orderly manner. A <input type="checkbox"/>	Obtained all of the relevant information but not always in a logical, systematic and efficient manner B <input type="checkbox"/>	Obtained most of the pertinent information, but not always in a logical manner, systematic and efficient manner C <input type="checkbox"/>	Obtained most of the relevant information, but failed to collect some key data D <input type="checkbox"/>	Obtained information in a haphazard unrelated fashion, resulting in omission of pertinent data. E <input type="checkbox"/>
--	---	---	--	---

2 Explanation of colposcopy procedure

Before colposcopy, effectively explained the actual procedure to all patients A <input type="checkbox"/>	Explanation provided to all patients before colposcopy but the quality of explanation was inadequate for some patients B <input type="checkbox"/>	Explanation provided to all patients before colposcopy but the quality of explanation was inadequate for most patients C <input type="checkbox"/>	Omitted explanation of the procedure before colposcopy of some patients D <input type="checkbox"/>	Omitted explanation of the procedure before colposcopy of some patients E <input type="checkbox"/>
---	--	--	---	---

3 Positioning the patient

Positioning of patient and speculum was skilful and effective for all patients A <input type="checkbox"/>	Positioning of patient and speculum was skilful and effective for all patients but was clumsy for one patient B <input type="checkbox"/>	Positioning of patient and speculum was skilful and effective for all patients but was clumsy for at least two patients C <input type="checkbox"/>	Positioning of patient and speculum was ineffective for some patients D <input type="checkbox"/>	Positioning of patient and speculum was ineffective for all patients E <input type="checkbox"/>
--	---	---	---	--

4 Use of the colposcope

Obtained clear, focused view of the patients' cervix in all patients A <input type="checkbox"/>	Obtained clear, focused view of the patients' cervix in all but one of the patients B <input type="checkbox"/>	Obtained clear, focused view of the patients' cervix in all but two of the patients C <input type="checkbox"/>	Did not obtain a clear, focused view of the cervix in most patients D <input type="checkbox"/>	Did not obtain a clear, focused view of the cervix in any patient E <input type="checkbox"/>
--	---	---	---	---

5 Colposcopic assessment

Colposcopic assessment in all patients was accurate and complete A <input type="checkbox"/>	Colposcopic assessment in one patient had a minor inaccuracy or omission B <input type="checkbox"/>	Colposcopic assessment in at least two patients had minor inaccuracies or omissions C <input type="checkbox"/>	Colposcopic assessment in at least one patients had major inaccuracies or omissions D <input type="checkbox"/>	Colposcopic assessment in more than one patient had minor inaccuracies or omissions E <input type="checkbox"/>
--	--	---	---	---

6 Colposcopically directed biopsy

Performed a skilful, effective biopsy in all appropriate patients and obtained haemostasis A <input type="checkbox"/>	Performed an effective but sometimes clumsy biopsy in all patients and obtained haemostasis B <input type="checkbox"/>	Performed an effective biopsy in all appropriate patients but failed to obtain haemostasis in at least one patient C <input type="checkbox"/>	Performed an ineffective biopsy in one patient and/or had difficulty in obtaining haemostasis in most patients D <input type="checkbox"/>	Performed an ineffective biopsy in more than one patient E <input type="checkbox"/>
--	---	--	--	--

7 Explanation of treatment

Before treatment effectively explained the procedure used to all patients, inc. likely patient experience & post treatment care	Before treatment effectively explained the procedure used to all patients but the explanation was occasionally poor	Before treatment effectively explained the procedure used to all patients but the explanation was often poor	Omitted explanation of the procedure used before commencing treatment of some patients	Omitted explanation of the procedure used before commencing treatment of all patients
A <input type="checkbox"/>	B <input type="checkbox"/>	C <input type="checkbox"/>	D <input type="checkbox"/>	E <input type="checkbox"/>

8 Treatment technique

Technically skilled in the treatment of all those patients undergoing treatment for cervical disease	Treatment for all patients for cervical disease was apparently effective but not always skilful	Treatment of one patient for cervical disease was of dubious effectiveness	Treatment of more than one patient for cervical disease was of dubious effectiveness	Treatment of most patients for cervical disease was of dubious effectiveness
A <input type="checkbox"/>	B <input type="checkbox"/>	C <input type="checkbox"/>	D <input type="checkbox"/>	E <input type="checkbox"/>

9 Patient record

Record of clinical findings complete and concise for all patients	Record of clinical findings complete for all patients but not always concise	Record of clinical findings for one patient had minor inaccuracies or omissions	Record of clinical findings for at least two patients had minor inaccuracies or omissions	Record of clinical findings for at least one patient had major inaccuracies or omissions
A <input type="checkbox"/>	B <input type="checkbox"/>	C <input type="checkbox"/>	D <input type="checkbox"/>	E <input type="checkbox"/>

10 Counselling

Consistently detected and was responsive to concerns and anxieties of patients	Consistently detected the concerns and anxieties of patients but occasionally failed to respond effectively to them	Consistently detected the concerns and anxieties of patients but often failed to respond effectively to them	Occasionally failed to detect the concerns and anxieties of patients	Apparently unaware of the concerns and anxieties of patients
A <input type="checkbox"/>	B <input type="checkbox"/>	C <input type="checkbox"/>	D <input type="checkbox"/>	E <input type="checkbox"/>

This assessment is based on observation of the candidate with ____ (no.) patients over a period of ____ hours.

A rating of 'B' is the basic competence level for EACH skill.
