Mr. Sonny Lim, B.Sc. (Hons), MPH JHSPH

Mr. Sonny Lim pursued his Honors year research project from 1996-1997, at the Department of Microbiology, under the supervision of Assoc. Prof. Yap Eu Hian and Dr. Song Keang Peng. His research focused on understanding the pathogenesis of bacterial infections. Sonny feels that the Department gave him an appreciation for research work and this affected his subsequent career choice. He is currently Assistant Director for the Surveillance and Response Branch in the Communicable Diseases Division, Ministry of Health, where he oversees the day-to-day epidemiological investigation and outbreak management of notifiable diseases in Singapore. During health crises, he is responsible for operating the Contact Tracing Centre (CTC) to ensure effective ring-fencing of contacts to minimize transmission.
