The General Safety and Wellness Team strives to maintain a safe, secure, and healthy workplace environment in the Department. The team shall vigilantly identify dangerous working conditions and the causes of potential accidents that may result in harm or physical injury. Together with the other safety teams, the appropriate control measures and safeguards will be implemented to minimize the risk of these hazards in the workplace. The team shall also introduce Departmental health promotion events that encourage healthier lifestyle choices and stress management for personal well-being in the workplace.

The primary objectives of the team are:

1. Commitment to prevent injury and ill-health by improving Work Safety and Health (WSH) performance.
2. Raise awareness through communication on safety, wellness and health.
4. Provide opportunities for the development of a healthier lifestyle by adopting good habits and attitudes.
5. Maintain a sustainable safe, healthy and secure working environment in the department.
