## Sharing Chemicals???

## Are you smart enough???

The Question is.....

**“Who has a container of highly corrosive  
Sodium Hydroxide?”**

And the Answer is.....

**It is IMPOSSIBLE to get the true answer with the clues / information given.**

### EXPLANATION

Lab A	Lab B	Lab C	Lab D	Lab E
Peter	Patrick	Mary	Michael	Jack
green	Red	white	blue	yellow
sodium chloride	magnesium chloride	calcium carbonate	?	copper sulphate
Fume Cupboard	Biological Safety Cabinet	Autoclave	Cold Room	Microscopy

1. There's **NO MENTION** of SODIUM HYDROXIDE in the clues / information given.
2. After deducing everything else, it's unknown what the blue container of chemical in MICHAEL's Lab D contains.
3. You are NEVER told that the fifth chemical is indeed SODIUM HYDROXIDE.
4. So, that does NOT make the 5<sup>th</sup> container to contain SODIUM HYDROXIDE.

**NONE of the entries received for this QUIZ Time!  
has the correct answer.**

***Sorry, guys! Gotcha, but that was a good try!***
