22 February 2012 (Wednesday)
Venue: Venus I

EAFONS PP I-001  Build a patient-centered shock-treatment-and-resuscitation-team the effectiveness of the operation
Chen Shu-Chun
Changhua Christian Hospital
Taiwan

EAFONS PP I-002  The effects of oral care protocols on bacterial floras of oral cavity and oral health status in intubated patients
Young Ran Chae
Kangwon National University
South Korea

EAFONS PP I-003  Anxiety levels on the day before surgery in breast cancer patients undergoing different operative procedures
Chika Minowa
Saku University
Japan

EAFONS PP I-004  Development and validation of the hospice palliative care performance scale
So-Hi Kwon
Kyungpook National University
South Korea

EAFONS PP I-005  Lived experiences of receiving hematopoietic stem cell transplantation in cancer patients
Tien-Li Liang
Hungkuang University
Taiwan

EAFONS PP I-006  The quality of life and its related factors among gynecological cancer survivors
Fei-Hsiu Hsiao
National Taiwan University
Taiwan

EAFONS PP I-007  How Asian patients with colon cancer cope with cancer treatments
Hsiang-Ping Huang
Chang Gung University of Science and Technology
Taiwan

EAFONS PP I-008  The efficacy of intermittent pneumatic compression as a decongestive therapy for lymphedema associated with axillary lymph node dissection in breast cancer patients
Shu-Fan Tsai
Kaohsiung Veterans General Hospital
Japan

EAFONS PP I-009  Aspects of cognitive impairment observed in Japanese breast cancer patients receiving chemotherapy at outpatient clinics
Harue Arao
Osaka University
Japan

EAFONS PP I-010  Quality of life (QOL) and problems in daily living of patients with prostate cancer undergoing radiotherapy
Noriko Ogura
Hirosaki University Graduate School of Health Sciences
Japan

EAFONS PP I-011  Symptoms, fatigue and quality of life with recently and primarily diagnosed colorectal cancer
Hsiu Chi Hung
Hungkuang University
Taiwan
EAFONS PP I-012  Quality of life (QOL) and acute radiation damage in patients with head and neck cancer undergoing radiotherapy  
Yuka Noto  
Hirosaki University Graduate School of Health Sciences  
Japan

EAFONS PP I-013  Research trends of health behaviour in survivors of childhood cancer  
Shoko Katsumoto  
Tokyo Medical and Dental University  
Japan

EAFONS PP I-014  Incidents in facilities in Japan for children with severe disabilities and their characteristics  
Kazuko Iida  
Yokkaich Nursing and Medical Care University  
Japan

EAFONS PP I-015  The relationship between the parents and medical staff in treatment policies for neonates born with critical illness  
Hiroko Sakurai  
Ritsumeikan University  
Japan

EAFONS PP I-016  A consideration of environmental factors affecting the hospitalisation of children  
Nao Araki  
Hokkaido University  
Japan

EAFONS PP I-017  The comparison of alcohol, natural dry, and salicylic sugar powder on umbilical separation time of the neonate  
Mei-Fang Liu  
National Taipei University of Nursing and Health Sciences  
Taiwan

EAFONS PP I-018  Development of tools for the objective assessment of the psychological state of hospitalised children  
Junko Hattori  
Aichi Prefectural University  
Japan

EAFONS PP I-019  Effects of a responsive parenting education programme on behavioural problems in children at risk of Attention Deficit Hyperactivity Disorder (ADHD)  
Heesun Shin  
Dankook University  
South Korea

EAFONS PP I-020  Children’s decision making on health care: A literature review on trends in nursing study in Japan and overseas  
Yoko Sato  
Hokkaido University  
Japan

EAFONS PP I-021  A case report on the sleep patterns of an autistic child using nonwear actigraphy (NWA) device  
Akiko Shimomura  
Baika Women’s University  
Japan

EAFONS PP I-022  Demand for aromatherapy in a pediatrics department  
Shingo Ueki  
Nakano Pediatric Hospital  
Japan

EAFONS PP I-023  Care for siblings of children hospitalised with mothers focusing on recognition and response to siblings’ coping behaviours by substitute carers  
Masaki Tanifuji  
Nihon University Itabashi Hospital  
Japan
A review on the effectiveness of school-based weight control programme among primary school children  
Mei Hua Kerry Hsu  
The The Hong Kong Polytechnic University  
Hong Kong

The socially vulnerable caregiver of children with asthma in Japan: A case analysis  
Shinobu Hashi  
Tokyo Medical and Dental University  
Japan

The association between obesity and asthma in children: A literature review  
Pei-Ching Liu  
MacKay Medicine, Nursing and Management College  
Taiwan

Changes in nurses and patients/families after introduction of asthma education for paediatric outpatients  
Masako Uchi  
Kobe City College of Nursing  
Japan

Physical activity level of adolescents with congenital heart disease: From cardiologists, adolescents’ and parental perspective  
Yang Hsiao-Ling  
National Taiwan University  
Taiwan

Nurses’ perspective on the needs of chronic respiratory patients and their families at the end-of-life  
Yoshiyuki Takahashi  
Chiba University  
Japan

Spiritual distress as depicted in the notes of patients with intractable neurological diseases  
Masako Nagase  
Juntendo University  
Japan

Dietary experience of patients with congestive heart failure  
Yi-Wen Lee  
National Taiwan University  
Taiwan

A structural equation model on health behaviour adherence for the elderly with prehypertension  
Eunha Lee  
Hyejeon College  
South Korea

Promotion strategies on turning patients by nursing staff in chronic wards  
Chiu Ming-Chu  
Central Taiwan University of Science and Technology  
Taiwan

Increasing haemodialysis patients’ compliance to doctors’ orders  
Hsu-Chun Tseng  
Changhua Christian Hospital Erlin Branch  
Taiwan

Using the theory of planned behaviour to predict nurses’ intention to provide health education and advices to patients  
Meyrick Chow  
The The Hong Kong Polytechnic University  
Hong Kong
The effects of a single-session Swedish back massage on blood pressure and heart rate in people with essential hypertension: A preliminary study
I-Chen Liao
Taipei Medical University
Taiwan

Difficulties faced by patients with rheumatoid arthritis and relevant factors influencing them in Japan
Kiyoko Aoki
Juntendo University
Japan

Respiratory care center patients weaning related Factors: A case-control study
Shu Wen Chang
I-Shou University
Taiwan

Psychosocial self-care behaviours of patients with chronic rheumatoid arthritis and the QOL
Mayumi Takaya
Juntendo University
Japan

Effect of depression and health motivation on the fear of recurrence after stroke
Jung Hee Kim
Dankook University
South Korea

Enablers and deterrents to self-care behaviour of Filipinos with diabetes
Stimson F. Agustin, Jr.
Centro Escolar University Manila
Philippines

Coping strategy of patients with ulcerative colitis recognise in deteriorating conditions and their effectiveness
Makoto Tanaka
The University of Tokyo
Japan

How much will the non-adherence to aminosalicylates increase the risk of clinical relapse among Japanese with ulcerative colitis?: A prospective cohort study
Aki Kawakami
The University of Tokyo
Japan

Effectiveness of the phased nursing interventions on fatigue among patients with chronic obstructive pulmonary disease
Qingling Zhong
Nanchang University
China

Symptoms and associated health outcomes in patients undergoing renal dialysis: A literature review
Xing Juan Tao
The The Hong Kong Polytechnic University
Hong Kong

A randomised placebo-controlled trial evaluating the complementary effects of auriculotherapy in relieving constipation symptoms among elderly residential care home residents
Mei-Kuen Li
The Open University of Hong Kong
Hong Kong
Difficulties of the transition of treatment place in people living with HIV and AIDS who need long-term care
Masami Kutsumi
Senri Kinran University
Japan

The effectiveness of health education on physical and psychosocial domain of quality of life among hemodialysis patients
Lu-Mei Wang
I-Shou University
Taiwan

Experience of organ donation in Changhua Christian Hospital in Taiwan from 2001 to 2010
Wang Szu Han
Changhua Christian Hospital
Taiwan

The effect of improving patient’s skin damage caused by human factors in a medical center of southern Taiwan: A longitudinal study
Yu-Chen Tung
National Chung Cheng University
Taiwan

The effect of improving patient’s unplanned endotracheal tube extubation in a medical center of southern Taiwan
Chi-Hui Chuang
Chi Mei Medical Center
Taiwan

The study on decreasing the Incidence of Urinary Tract Infection (UTI) for Medical Intensive Care Unit (MICU) patients by using focus Plan-Do-Check-Act (PDCA) strategies
Ying-Hsiu Chen
Chi Mei Medical Center
Taiwan

The study on the effect of reducing patient’s mouth mucosa damage rate in a medical center of southern Taiwan: A longitudinal study
Ning Chi Yang
Chang Gung University of Science and Technology
Taiwan

Explore the effect of decreasing the rate of abnormal sampling of specimens by nurses using the Plan-Do-Check-Act (PDCA) cycle at a Medical Intensive Care Unit (MICU) in Taiwan
Ya-Hsin Hsu
Chi Mei Medical Center
Taiwan

A research on the application of decision tree on unplanned self-extubation from the ventilation
Pei Chen Huang
Chi Mei Medical Center
Taiwan

Experiences of families of children with congenital heart disease who were transported to the Intensive care unit after birth
Sonoko Mori
Aichi Prefectual University
Japan

The longitudinal study of survivors’ daily lives and health conditions after Sichuan earthquakes in China: The first and second year’s results of survivors answered ‘not healthy’
Akiko Kurotaki
University of Hyogo
Japan
Extraction of predictive weaning criteria
Hui Ju Chung
Chi Mei Medical Center
Taiwan

The study on the related factors of unplanned endotracheal tube extubation at an intensive care unit of a medical center in southern Taiwan
Ya Ling Chen
Chi Mei Medical Center
Taiwan

Profile of elderly with multiple physician visits: Application of development comprehensive geriatric assessment
Mei-Chen Kuo
Taipei Medical University
Taiwan

The characteristics of nurses who establish communion with stroke patients with aphasia
Yuki Yamashita
Hyogo University
Japan

Exploring quality of sleep and its related factors among Korean community-dwelling older adults
Jin-Hee Park
Ajou University
South Korea

The effects of group art therapy on cognition, depression, and quality of life in elderly
Yeon Hee Choi
Kyungpook National University
South Korea

Information required by visiting nurses to understand home resident elderly patients’ will regarding terminal care
Masako Takahashi
Miyagi University
Japan

Changes in Health related quality of life among patients going through total hip arthroplasty (THA) with Japanese lifestyle
Kimie Fujita
Saga University
Japan

Characters of support needs for in-home care elderly discharge inpatients in Kaifukuki rehabilitation ward
Mariko Zensho
Saitama Prefectural University
Japan

How are nursing records improved for elderly people?: A literature review
Miyae Yamakawa
Osaka University
Japan

Relations between current life functions of community-dwelling elderly in Japan and their physical and mental states and social situation
Goto Junko
Yamagata prefectural University of Health Sciences
Japan

Survey on hand contamination of residents with contractured hands in a long-term care health facility
Shiori Sasahara
University of Toyama
Japan
Development and evaluation of health mentoring programme by community older volunteers for older adults living alone
Su Hyun Kim
Kyungpook National University
South Korea

Postal survey of the perceived needs for hospitalisation associated with behavioural and psychological symptoms of dementia (BPSD)
So Yayama
Senri Kinran University
Japan

The feature of eating behaviour in elders with dementia in community
Hua-Tsen Hsiao
National Cheng Kung University
Taiwan

Review of comprehensive health care for elderly people in Japan and other countries
Yuki Kanzaki
Tokyo Metropolitan University
Japan

Inside the walls: A phenomenological inquiry into the lives of physically disabled Filipino elderly in a home for the aged
Renea Camille Zuniga
University of Santo Tomas
Philippines

A survey of academic research on programmes and challenges in the promotion of interaction between the elderly and children in an institutional environment
Hiromi Hayashitani
Sonoda Women’s University
Japan

Effects of music therapy on the negative emotions of bed-ridden patients
Feng-Ching Sun
Kaohsiung Medical University
Taiwan

Factors related to care levels after five years in elderly people with lower care levels in Japan
Kyoko Izumi
Osaka Prefecture University
Japan

Effect of edible sesame oil on the growth of candida albicans
Toshiko Ogawa
Chiba University
Japan

The comparative study of sense of coherence (SOC) and related social support
Keiko Miyasaka
Nakakyushu Junior College
Japan

An actual condition survey of nursing workers’ recognition and prevention for infection in long-term care insurance facilities: Based on the results of a questionnaire survey conducted in western Japan
Miho Naito
Niigata College of Nursing
Japan

The predictive factors of self-efficacy on activities of daily living in patients with stroke
Shu-Chen Hsiao
Tzu Hui Institute of Technology
Taiwan
Effectiveness of relaxation intervention on anxiety, stress, pain and self-efficacy among patients following total hip or knee replacement: A literature review
Yee Chen Lim
National University of Singapore
Singapore

Adherence to oral anticancer drugs in elderly patients
Myoung-Ae Choe
Seoul National University
South Korea

Exploring the contribution of spirituality to the quality of life (QOL) in Hong Kong community-dwelling stroke survivors
Kitty Chan
The Hong Kong Polytechnic University
Hong Kong

Translation of research evidence for clinical staff practicing at regional hospitals in Japan: Activities of an advanced practice nurse
Yayoi Takahashi
Seirei Sakura Citizen Hospital
Japan

Bacteria contamination of a hot towel for bed baths and sanitisation by heating
Yukiko Yamamoto
Sonoda Women’s University
Japan

Reducing halitosis with tongue cleaning versus toothbrush: A systematic review and meta-analysis
Ya Wen Kuo
National Chung Kung University
Taiwan

The effectiveness of swallowing rehabilitation with different methods of swallowing training in Improving three to six months after the stroke patients
Miao-Yen Chen
National Taipei University of Nursing and Health Sciences
Taiwan

The appropriateness of nursing aides training programme in assist nurses
Li-Chu Lee
Taipei Veterans General Hospital Su-Ao & Yuanshan Branch
Taiwan

Uncertainty, emotional well-being and coping stress among spinal cord injury patients in eastern area, Taiwan
Leu Shu-Hwa
Taipei Veterans General Hospital Su-Ao & Yuanshan Branch
Taiwan

Performance appraisal on the beginning nurse informatics competencies among students of a selected college of nursing in Manila
John Francis Jr Faustorilla
University of the Philippines Manila
Philippines

Develop the nursing process guidelines in nursing education and practice settings
Haesook Hong
Kyungpook National University
South Korea

Long term care needs of the disabilities in Taiwan
Nai-hui Chien
Chang Gung University of Science and Technology
Taiwan
