

National University of Singapore
Yong Loo Lin School of Medicine
Alice Lee Centre for Nursing Studies (ALCNS)

Research Assistant

[Appointment period: 2 years in the first instance, with a possibility of extension]

Duties

The appointee will assist the project leader in the project – “**Developing the symptom care and management system to monitor and support patients receiving chemotherapy (Ref: T1)**” and will be required to:

- (a) Oversee the general management of the project;
- (b) Undertake the day to day running of the project at sites of interview and data collection;
- (c) Provide administrative and secretarial support to project meetings;
- (d) Conduct literature review; and
- (e) Assist in preparing both progress and final reports of the project.

Qualifications

Applicants should have:

- (a) A good first degree or hold a master’s degree preferably in nursing/social work/education/computer science or related disciplines;
- (b) Experience in conducting literature review;
- (c) Knowledge of personal computer applications, e.g. SPSS, MS office
- (d) Hands-on experience in Java, OpenGL, C/C++ and GPU programming are advantageous; and
- (e) Good interpersonal and communication skills.

Preference will be given to those with experience in project management and research. Salary offered will be commensurate with qualifications and experience. Informal enquiries are welcome and should be made to Dr. Moon-Fai Chan, Assistant Professor, ALCNS, at Tel no. +65 65168684, fax no. +65 67767135, or E-mail: nurcmf@nus.edu.sg.

Formal application: Please submit your application, indicating **current/expected** salary, supported by a resume and full contacts of **at least 2 referees** to:
