Research Assistant (Full or Part-time)

We are seeking to appoint a talented and able social or health researcher to join a team of researchers working on a research project entitled "**Exploring the phenomenon of unplanned hospital readmission in Singapore: a structural equation modelling approach (Ref: T2)**". The aim of the project is to investigate issues related to unplanned hospital readmission in Singapore. You will need proven skills in both qualitative and quantitative data collection, analysis and writing up. These skills may have been obtained in any area of research activity as it is transferable research skills that are required. You will need experience and expertise in interviewing and qualitative data analytic techniques. Depending on the level of appointment, you will have the opportunity to develop or expand your own research programme in collaboration with other staff members of our research team members.

The appointment will be offered on a full or part-time basis. This a fixed-term appointment of approximately 18 months full-time, with a possibility of extension, although the precise duration of the contract will depend on the time commitment and point on the salary scale.

Informal enquiries are welcome and should be made to Dr. Moon-Fai Chan, Assistant Professor, ALCNS, at Tel no. +65 65168684, fax no. +65 67767135, or E-mail: nurcmf@nus.edu.sg

Formal application: Please submit application, indicating **current/expected** salary, supported by a resume and full contacts of **at least 2 referees** to:
