COPIES SOLD

PEH SHING HUEI

“Yeo’s vision was to develop intellectual property in Singapore through research and use that to create indigenous companies. An example would be local medical diagnostic firm Restalyst, which successfully commercialized a technology from the NUS and launched a more accurate gastric cancer screening kit in late 2015.”

“Such solutions, said Professor John Wong, who is the CEO of the National University Health System, are the goal of Singapore’s biomedical sciences push.”
