#### 4.2. Checking and Updating Order of Preference

The Order of Preference will only be taken into consideration when you apply to multiple programmes under the same Faculty/School. The screenshots above present an example where it is important as both of the programmes are offered by the same Faculty which will take note of the order of preference when processing the applications.

On the other hand, the order of preference does not matter when an applicant applies for, say, the Master of Computing and Master of Public Policy, which are offered by different Faculties/Schools.

As your preferences cannot be changed after submission of application, please finalise your order of preference before submitting your application (i.e. when the Application Status is at "Pending online submission").

#### 5. Submit Application

Click on the *Apply* link to begin the submission of your application one at a time. You will be prompted to check your order of preference:

#### 6. On Managing Referees

As referee reports are commonly included as part of the assessment criteria for NUS graduate programmes, this section highlights the key aspects on management of referees.

6.1. Create/Edit Referee Details

You can create, edit or delete a referee's details by clicking on the *Referee Details* link at the left panel on your homepage:

If you have not already created the referee details when you start to submit your application, you will be allowed to create and assign them to your application during your submission.

As the number of referee reports required will vary from programme to programme, please refer to the specific instructions from the Faculty/School hosting the programme(s) that you are applying to.

Applicants can choose to assign the same referee to provide referee report for multiple applications under the same application cycle:

- If all the programmes applied are using the same format for the referee report, this referee will only be required to submit the referee report once.
- However, if the programmes are using different formats for the referee report, the referee will then be required to submit multiple reports.

6.2. Track Status of Referee Report Submission

Click on the View link to check on the status of your referee's report submission.

Do note that your referees will be given 14 days to submit their report from the date of the email notification.

Please remind your referee to submit his/her report when the deadline is nearing and the report status is still shown as "Pending Submission".

If you have already submitted your application and require a new referee, you can create the record for the new referee under this section. Thereafter, please approach the Faculty / School that you are applying to for help in associating the referee to your application and emailing him / her the referee report link.

#### 6.3. Email Invitation to submit Referee Report

After you have submitted your application online, your assigned referees will each receive an email inviting them to submit their referee report online within 14 days from the date of the email:

Faculties may sometimes allow applicants to manually trigger this email notification before the application is submitted. When the email is triggered in this way, the 14-day deadline will likewise be from the date of email notification (instead of the date of application submission).

If your referee attempts to access the link after it expires, he/she will encounter the following message:

#### **Referee Report Status**

The page that you are attempting to access is invalid. This can be due to the deadline of referee report submission being exceeded or other reasons.

For enquiries pertain to the referee report(s), please contact the applicant or the <u>Graduate Divisions</u> of the respective Faculties/Schools conducting the programmes.

In the above situation, please <u>contact</u> the Faculty/School that you are applying to directly, should your referee require assistance on the referee report submission (e.g. resending of email notification, extending of deadline for report).

#### 7. On Making Payment for Fees

This section contains key points on payment of application and/or acceptance fees for applicants to take note.

#### 7.1. Application Fee

With effect from March 2017, the majority of NUS graduate programmes require applicants to make payment for application fee before they are allowed to submit their applications online.

7.2. Acceptance Fee

There are some programmes that require applicants to make payment for acceptance fee before they can accept the offer of admission. Hence, for programmes that allow applicants to accept the offer online, the system will check for payment of acceptance fee (if applicable), before allowing the applicant to accept the offer.

#### 7.3. Important Notes

Please take note of the following:

- All payments for application fee and acceptance fee are <u>not</u> refundable.
- While the payment status is usually updated from the e-payment facility within a few seconds to a few minutes, it may sometimes take up to a few hours. As such, please plan this possibility and refrain from making payment last minute ahead of the submission of application/acceptance of offer.
- If you believe that your payment attempt is successful but the payment status is shown as unsuccessful in the system, please refrain from making payment again. Instead, please <u>contact</u> the faculty/school/institute that you are applying to for clarification on the actual payment status. This is to prevent multiple payments.
- 7.4. Making Online Payment

To make payment online for application fee and/or acceptance fee, navigate to *View Application/Make Payment/Submit Reply on Offer of Admission*, then click any of the *Pay/View* links:

#### Applicant Guide to the Graduate Admission System (GDA)

Do not click on the payment link if you are not ready to pay yet, as you may need to wait for up to 6 hours before you can make another payment attempt.

On the next page, you will be able to see the amount and payment status for each of the applications that you are applying to. When you are ready to proceed with the online payment for application/acceptance fee, click on the *Proceed to pay* link under the relevant fee type.

The next few screenshots shows the payment of acceptance fee, which is required by some programmes before applicants can accept the offer of admission. The payment of application fee (if applicable) under this section will follow the same steps.
