Panel

Prof Theng Yin Leng

Executive Director
Ageing Research Institute for Society and Education (ARISE), Wee Kim Wee School of Communication and Information, Nanyang Technological University (NTU)

President's Chair in Information Studies and Professor
Wee Kim Wee School of Communication and Information, Nanyang Technological University (NTU)

Dr Theng Yin Leng is President's Chair in Information Studies, and Professor at the Wee Kim Wee School of Communication and Information (WKWSCI), Nanyang Technological University (NTU, Singapore). She is the Executive Director of the Ageing Research Institute for Society and Education (ARISE), and Co-Director, Centre of HEalthy and Sustainable CitieS (CHESS), WKW, NTU.

In the area of research, Dr Theng's philosophy is about doing scientifically-based experimental Human-Computer Interaction in understanding users and their interactions, especially for Information Systems, in her earlier research on the World Wide Web and Digital Libraries, and with a focus on interactive systems/devices for the Elderly, Healthcare, Education and Training.

Over the past 20 years since returning to Singapore, she received research grants totalling over $14M as PI with external grants from A*Star, MOH and NRF to work on projects in telehealth, patient care, elderly and technologies. Dr Theng has participated in numerous research projects as PI, Co-I and Collaborator with more than 300 publications published widely in international journals and conferences.

Panel

Dr Zhang Yichi

Research Officer
SingHealth Centre for Population Health Research and Implementation (CPHRI)

Yichi recently completed her PhD studies at the Ageing Research Institute for Society and Education, Nanyang Technological University. Her research interest focuses on co-designing, implementing, and evaluating digital health solutions to address the health needs of the older population living in the community. She is currently working on population health research in both the clinical and community settings, with the aim to develop effective strategies that bridge the gap between research and practice and to ensure that evidence-based interventions are translated into real-world settings for maximum impacts.

Host & Moderator

Adj Asst Prof Serene Koh

Director
Behavioural Insights Team
(Singapore)

Adjunct Assistant Professor
Centre for Behavioural and
Implementation Science
Interventions (BISI),
National University of Singapore

Serene is a behavioural scientist and currently the Director of BIT Singapore where she leads the domestic consultancy work as well as capability building across the region. She helped to set up the office in 2016 and has managed projects across various policy domains including health, enforcement & compliance, community, skills and employment, home affairs.

Serene has led more than 200 behavioural projects, just under half of which are randomised-controlled trials. She also has deep expertise in capability building– to date, she has delivered training workshops to more than 5000 civil servants, NGO practitioners, and private sector partners in Singapore and the Asia-Pacific.
