

Medical Education Round

*Specially brought to you by
Medical Education Round Sub-Committee
Medical Education Unit, Yong Loo Lin School of Medicine, NUS*

12 Sept 2006 (Tuesday)

7.30am - 8.30am

**Auditorium, Clinical Research Centre,
MD 11, Dean's Office, Yong Loo Lin School of Medicine, NUS**

**"Self-Assessment, Self-Direction, Self-Regulation
and Other Myths:**

Implications for the Professional Maintenance of Competence"

**Speaker: Prof Glenn Regehr
The Wilson Centre for Research in Education
University of Toronto & University Health Network**

**Chairman: Prof Matthew Gwee, Chairman of International and
Education Programmes, Medical Education Unit, NUS**

Accurate self-assessment and effective self-directed learning are taken as core competencies required for the self-regulating professional to maintain competence in practice. But much of the education literature raises doubts about individuals' abilities in these domains, not only among our trainees, but also among our practicing colleagues. This session will:

- 1) review and explore the concepts of self-assessment and self-direction
- 2) address some of the personal and environmental limitations on these processes
- 3) discuss how we might address these limitations in order to evolve safe and effective practitioners.

Buffet Style Breakfast with freshly made hot waffles will be served

All academic staff, medical, dental, allied health professionals and nurses are invited.

1 CME point will be accredited by SMC
