

Medical Education Round “The Art of Medicine Series”

*Specially brought to you by
Medical Education Round Sub-Committee
Medical Education Unit, Yong Loo Lin School of Medicine, NUS*

5 Oct 2007 (Friday), 7.30am - 8.30am
Auditorium, National University Hospital,
Level 3, Kent Ridge Wing

“Academic Medicine in the 21st Century - Any Help From Osler?”

**Speaker: Clin Prof Chee Yam Cheng
Asst CEO (Clinical), NHG**

**Chairman: A/Prof Lawrence Ho
Head, Dept of Medicine, NUS**

Osler served 3 nations in distinguished capacities. Well known for his humanism, regarded by many as the ideal medical practitioner, he was also an educator whose concepts revolutionised clinical teaching. In tracing his life and times, many of his aphorisms will be highlighted in our quest to do better in clinical and academic medicine. His sayings on Hospital, University and Women will add some jest to an otherwise boring talk.

**All academic staff, medical, dental, allied health professionals,
nurses and medical students are invited.**

1 CME point will be accredited by SMC

*“The Central Mission of
medical education is to
improve the quality of health
care delivered by doctors and
we must never fail to
remember the central role
played by patients as the
ultimate recipients of our
skills—what doctors do, and
how and when they do it,
depends on the quality of
medical education. We need
to get it right”
(Bligh & Parsell 2000)*
