

Medical Education Round

*Specially brought to you by
Medical Education Round Sub-Committee
Medical Education Unit, Yong Loo Lin School of Medicine, NUS*

8 June 2007 (Friday), 7.30am - 8.30am
Auditorium, National University Hospital,
Level 3 Kent Ridge Wing

“Disciplinary Scholarship & Best Evidence Medical Education”

Speaker: Dr John Tam
Assistant Professor, Dept of Surgery, NUS

Chairman: Dr Gerald Koh
Assistant Professor, Dept of Community, Occupational & Family Medicine,
NUS

Scholarship is at the heart of all institutions of higher learning, and it is central to the activities of the faculty. The multi-dimensional nature of scholarship has implications at the personal, institutional, and disciplinary levels. The scholarship of teaching in the context of medical education will be discussed. There is currently a progressive movement towards Best Evidence Medical Education (BEME) as a form of scholarship of teaching. We will explore the concept of BEME as well as factors that may influence its' development.

**All academic staff, medical, dental, allied health professionals
nurses and medical students are invited.**

1 CME point will be accredited by SMC

*“The Central Mission of
medical education is to
improve the quality of health
care delivered by doctors and
we must never fail to remember
the central role played by
patients as the ultimate
recipients of our skills—what
doctors do, and how and when
they do it, depends on the
quality of medical education.
We need to get it right”
(Bligh & Parsell 2000)*
