Clinicians today are expected to do their best in the interests of their patients. We believe in “Putting Patients First”. As we strive to achieve this, our patients’ expectation have also increased. William Osler once said that “a good physician treats the disease; the great physician treats the patient who has the disease”. Dentists must therefore go “Beyond the Mouth”.

**All academic staff, medical, dental, allied health professionals,  
nurses and medical students are invited.**

**1 CME point will be accredited by SMC**

*“The Central Mission of  
medical education is to  
improve the quality of health  
care delivered by doctors and  
we must never fail to  
remember the central role  
played by patients as the  
ultimate recipients of our  
skills—what doctors do, and  
how and when they do it,  
depends on the quality of  
medical education. We need  
to get it right”  
(Bligh & Parsell 2000)*
