Member, Medical Education Unit; &
Associate Professor
Department of Pharmacology;
NUS Yong Loo Lin School of
Medicine
National University Health System

Course Description

Training to provide and receive feedback is important in the current learning context to improve the educational setting as well as monitor the progress of the trainees as well as the trainers. If done properly, feedback will have a transformative effect on the person as well as the practice environment. Therefore, it is imperative that one gets trained in giving both positive and negative feedback skillfully.

The workshop will focus on feedback techniques and discuss on how to develop good practices as well as identify bad practices. Training will be in small groups and will focus on current learning environments of undergraduate and postgraduate settings.

**Competency Based Medical / Health Professional Education:
Feedback Training**

25th June 2010 (Friday), 8.30am — 5.30pm
