MEU Associate
Associate Professor, Dept of Pharmacology
NUS Yong Loo Lin School of Medicine
National University Health System

Erle Lim

MEU Associate
Associate Professor, Dept of Medicine
NUS Yong Loo Lin School of Medicine
National University Health System

Course Description

The education of medical / healthcare professionals today must be able to meet the challenges, demands and expectations of their patients in the 21st century. Educational paradigms have changed significantly over the years to match the requirements of a "cognitive age" in a globalised, knowledge-based economy, and also be consistent with current understanding of how people learn. The changing educational paradigms will impact strongly on the way in which medical / healthcare professionals should be educated.

This workshop will facilitate understanding of the major changes in educational paradigms and how such changes will impact on the education of doctors and other healthcare professionals in the 21st century. The major focus of this workshop will be on:

- Learning in a digital age (including a re-appraisal of the teacher's role)
- Shifting the educational paradigm from instruction to learning
- Globalisation of healthcare and how this has impacted medical / healthcare education

21st Century Teaching-Learning Strategies

25th February 2013 (Monday) 8.30am – 5.30pm

Symposium Rooms 2 & 3, Clinical Research Centre (CRC)
Block MD11, 10 Medical Drive, Yong Loo Lin School of Medicine
National University of Singapore
