National University Health System

Koh Dow Rhoon
Associate Professor, Dept of Physiology
NUS Yong Loo Lin School of Medicine
National University Health System

John Tam
Assistant Professor, Dept of Surgery
NUS Yong Loo Lin School of Medicine
National University Health System

Course Outline

The course is designed to review current trends, issues and challenges in curriculum development and the teaching-learning process in medical education, including the need to reappraise our roles as content experts in the education of medical students in the 21st century.

Best evidence medical education (BEME) will be applied in all discussions. The course description is posed as questions to provoke participants to reflect on the issues we have raised and also to encourage participants to continue to engage in further discourse with other colleagues, especially after completing this course.

We hope that through this process of sharing and learning together we can build a community of learners and scholars who will contribute to our common mission of delivering effective healthcare to our nation through the education of bright, young and nimble minds.

Topics To Be Covered

- Designing an Undergraduate Medical Curriculum for the 21st Century
- Designing Effective Learning Strategies for Students in the 21st Century
- Enhancing Capability and Development of Faculty Beyond Just Content Expertise

Curriculum Design, Evaluation and Continuous Quality Improvement

11th & 12th September 2013 (Wednesday & Thursday) 8.30am – 5.30pm

Symposium Rooms 2 & 3, Clinical Research Centre (CRC),
Block MD11, 10 Medical Drive, Yong Loo Lin School of Medicine,
National University of Singapore
