NUS Yong Loo Lin School of Medicine National University Health System

Course Faculty

Zubair Amin
MEU Associate
Associate Professor
Dept of Paediatrics
NUS Yong Loo Lin School of Medicine
National University Health System

Course Outline

"The origin of the word portfolio is interesting. It is the combination of two words: 'portare' which means 'to carry' and 'folium' which means 'leaf/sheet'. Portfolio is a portable and a living document that collects personal and professional goals, achievements, and reflections in a systematic manner.

In this workshop, our aims are to explore portfolio-based learning and assessment in greater details and answer the following critical questions:

- What is portfolio?
- What is purpose of portfolio?
- How does the purpose of portfolio influence the content and organization?
- How can portfolio help me to support student learning?

You are welcome to share your own experiences and issues with the group and learn from each other.
