

NUS-Priority Research In Medical Education

Monday 9 Jun 2014

Improving Defensibility of Assessment Decisions

Prof Richard Hays
Professor of Medical Education
University of Tasmania
Australia

About the Speaker:

Professor Richard Hays has doctoral level qualifications in both education and medicine. He has spent the last 20 years developing new medical programs (e.g. James Cook University in Australia and Keele University in the UK) and approaches curriculum development through assessment. "If you assess what graduates need to know, they prepare better for their future careers".

Synopsis:

Candidates are increasingly challenging the results of assessment that they do not like. This may be due to heavy emotional and financial investment in medical studies and the high stakes nature of some decisions, but it is also likely that assessment practices and the governance of assessment decision-making being could be improved. This session will discuss common pitfalls and some solutions, based on some real life examples.

If you are interested to share your medical education research project, please email medyeos@nus.edu.sg to book a slot.

SMC CME / CNE / CPE accreditation are being finalised.

Time: 1.00pm to 2.00pm

Venue: Rooms T11-02 & T11-03, Level 11, NUHS Tower Block, 1E Kent Ridge Road, Singapore 119228

(Lunch will be provided from 12.30pm to 1.00pm. Please RSVP at <https://www.surveymonkey.com/s/NUS-PRIME9Jun2014> before 2 Jun for catering purpose.)
