Goh Poh Sun

CenMED Associate
Associate Professor, Dept of Diagnostic
Radiology
NUS Yong Loo Lin School of Medicine
National University Health System

Dong Chaoyan

Medical Educationalist, CenMED
NUS Yong Loo Lin School of Medicine
National University Health System

Sanjay Khanna

Associate Professor, Dept of Physiology
NUS Yong Loo Lin School of Medicine
National University Health System

Course Description

The Flipped Classroom model is gaining increasing attention in health professions education. The flipped classroom shifts the traditional lecture to a pre-class activity, promotes active learning, facilitates formative assessment and can be scaled up for a large number of students. The role of teachers shifts from being a “sage on the stage” to a “guide on the side.” Lectures are replaced by student centered activities. In this workshop, Dr. Dong Chaoyan will address questions related to the flipped classroom model; Prof. Sanjay Khanna will share his experience using the flipped classroom model in neuroscience teaching; Prof. Goh Poh Sun will present several technological platforms and solutions which can support a flipped classroom. By the workshop will address the following questions:

1. What is a flipped classroom model?
2. How does it work?
3. Why is it significant?
4. What are the downsides?
5. How to flip a classroom in health professional education?
6. What are the best practices in using the flipped classroom model?

Flipped Classroom

27th April 2015 (Monday) 1.30pm - 5.30pm

#01-01B, Level 1, Centre for Translational Medicine (CeTM)
Block MD 6, 14 Medical Drive, Yong Loo Lin School of Medicine
