

### Course Faculty

**Goh Poh Sun**

CenMED Associate  
Associate Professor  
Dept of Diagnostic Radiology  
NUS Yong Loo Lin School of Medicine  
National University Health System

**Dong Chaoyan**

Medical Educationalist, CenMED  
NUS Yong Loo Lin School of Medicine  
National University of Health System

### Course Outline

Qualitative methods are powerful tools to help educational researchers to develop theory, evaluate programs, and design educational interventions. Using qualitative methods, you can get additional information which is not well captured by quantitative techniques. Participants to the intermediate level are expected to have a good understanding of the qualitative methods such as techniques to develop the research questions, and strategies in qualitative data collection. The intermediate level of the workshop will focus on approaches in qualitative data analysis, validation of qualitative results, and standards in reporting qualitative research.

By the end of the workshop, the participants will be able to:

1. Analyze qualitative data
2. Using different approaches to justify the rigor of qualitative study design such as triangulation
3. Apply established methods to report qualitative research projects

## Qualitative Research Methods in Health Professions Education : **Intermediate**

30<sup>th</sup> July 2015 (Thursday) 8.30am – 5.30pm

#01-01A, Level 1, Centre for Translational Medicine (CeTM)  
Block MD 6, 14 Medical Drive, Yong Loo Lin School of Medicine  
National University of Singapore
