Associate Professor, Dept of Diagnostic
Radiology
NUS Yong Loo Lin School of Medicine
National University Health System

Sanjay Khanna

Associate Professor, Dept of Physiology
NUS Yong Loo Lin School of Medicine
National University Health System

Lee Shuh Shing

Medical Educationalist
CenMED
NUS Yong Loo Lin School of Medicine
National University Health System

Course Description

The Flipped Classroom model is gaining increasing attention in health professions education. The flipped classroom shifts the traditional lecture to a pre-class activity, promotes active learning, facilitates formative assessment and can be scaled up for a large number of students. The role of teachers shifts from being a “sage on the stage” to a “guide on the side.” Lectures are replaced by student centered activities. In this workshop, Prof. Sanjay Khanna will share his experience using the flipped classroom model in neuroscience teaching; Prof. Goh Poh Sun will present several technological platforms and solutions which can support a flipped classroom and the workshop will end with a hands-on session in planning a flipped classroom model for your teaching, facilitated by Dr Lee Shuh Shing. The workshop will address the following questions:

1. What is a flipped classroom model?
2. How does it work?
3. Why is it significant?
4. What are the downsides?
5. How to flip a classroom in health professional education?
6. What are the best practices in using the flipped classroom model?

Flipped Classroom

17th May 2016 (Tuesday) 1.30pm - 5.30pm

**#01-01B, Level 1, Centre for Translational Medicine (CeTM)
Block MD 6, 14 Medical Drive, Yong Loo Lin School of Medicine
National University of Singapore**

Registration Fees

NUHS staff - S\$148*

(including staff on clinical faculty / adjunct scheme)
