

Quality Assurance & Accreditation

Feedback from past participants...

"Productive Discussions"

"Very good presenters"

Course Description

Quality assurance and accreditation is important to assure that institutions and programs meet threshold expectations of quality using a set of standards and improve education quality over time. Some common practices in quality assurance and accreditation includes a self-review by the institution or program against the standards, an on-site visit by an evaluation team of peer experts and a subsequent review and decision by the accrediting body about accredited status. Hence, this workshop will cover the following:

- Quality Maintenance
- Quality Assurance
- Continuous Quality Improvement
- Accreditation

At the end of the workshop, participants should be able to:

- Apply the basic principles of quality maintenance at program level
- Discuss and apply principles of continuous quality improvement at Institutional level
- Apply principles of quality assurance and accreditation in health professional education to one's own learning environment
- Evaluate challenges, limitations and ways forward for maintaining quality assurance system
