

Qualitative Research Methods in Health Professions Education

Feedback from past participants...

"Interactive pre-reading materials - the videos are excellent & engaging."

"I really learn a lot in this way more than a traditional lecture delivery style."

Course Description

Qualitative methods are powerful tools to help educational researchers to develop theory, evaluate programs, and design educational interventions. Using qualitative methods, you can collect in depth information that you cannot obtain with quantitative methods. Qualitative methods are used to study human behavior and behavior changes, which are not well captured by quantitative techniques. The purpose of this workshop is to guide researchers in designing and implementing qualitative research projects. An overview of qualitative research design will be provided along with general recommendations for developing research questions, formulating a hypothesis, analyzing qualitative data, and validating the results.

By the end of the workshop, you will have a better understanding of, and be able to:

- Define and describe qualitative research methods
- Discuss the advantages and disadvantages of qualitative research methods
- Describe the data collection methods in qualitative research (interview, observation and focus group discussions)
- Analyse a simple qualitative data

DATE: 24 May 2018, Thursday

TIME: 9.00am - 5.00pm

VENUE: National University of Singapore,
Centre for Translational Medicine (CeTM),
14 Medical Drive,
Block MD 6, #01-01B,
Singapore 117599

Registration Fees

NUHS STAFF - S\$204*
(Including staff on clinical faculty/adjunct scheme)
Others - S\$230*

*Fees are inclusive of GST
Registration is on a first-come-first-served basis
