

Supporting the Learners Through Supervision, Coaching and Mentoring

Course Description

The present medical and health professional training landscape is complex and could be stressful to both the learner and the teacher. As a result, the importance of teachers' proficiency in strategies such as mentoring, supervision and coaching has intensified than ever before. Closely competing for its due place in the teacher's toolkit, these three educational strategies could sometimes be elusively overlapping. However, a clear understanding about the different roles and functions of each strategy, and where these would be most useful is value-add to educators and administrators involved in health professional training programmes. This workshop aims to provide the participants the foundational knowledge and skills in mentoring, supervision and coaching to enhance their own teaching-learning environments.

At the end of the workshop the participants should be able to:

- I. Explain the importance of mentoring, supervision and coaching in the context of present-day health professions education.
- II. Differentiate the key roles and functions of mentoring, supervision and coaching.
- III. Identify with justification the role(s)/function(s) in each strategy that would be most suitable to engage in differing teaching and learning situations.
- IV. Discuss the common pitfalls that one should be aware of when applying each of the above three strategies; i.e. mentoring, supervision and coaching.

Facilitators

Dujeepa Samarasekera
Senior Director, CenMED
NUS Medicine
National University Health System

Tan Chay Hoon
CenMED Associate
Associate Professor,
Dept of Pharmacology
NUS Medicine
National University Health System

Shirley Ooi
CenMED Associate
Senior Consultant,
Emergency Medicine Department
National University Hospital
National University Health System

Benjamin Goh
Consultant, Dept of Urology,
National University Hospital
Clinical Lecturer, Dept of Surgery,
NUS Medicine
National University Health System

Marion Aw
CenMED Associate
Associate Professor,
Dept of Paediatrics
NUS Medicine
National University Health System

DATE : 6 July 2021, Tuesday

TIME : 9.00am - 3.30pm

VENUE: (Virtual Face-to-Face Session)

+

Registration Fees

NUHS STAFF - (\$204 + 7% GST) = S\$218.28
(Including staff on clinical faculty/adjunct scheme)

Others - (\$230 + 7% GST) = S\$246.10

Registration is on a first-come-first-served basis
