

TECHNOLOGY – ENHANCED LEARNING

Course Description

Technology-Enhanced Learning is everywhere with the influx of new technology and has become an accepted educational tool and platform to support and augment teaching and learning in health professions education. To keep up with what's changing (and what isn't), educators must know where to look. Although technology-enhanced learning in health professions education has demonstrated positive learning outcomes, promotes interaction between students/trainees and instructors, and positive assessment outcomes, significant body of research has shown that most teachers have been slow to transform the ways they teach.

This introductory level workshop is designed as an introduction to the topic for beginners and might also be useful as a refresher course for more experienced practitioners to expose the educators on the following:

1. Introduce technology-enhanced learning tools such as use of videos, mobile, and learning management system
2. Introduce technology-enhanced learning modality such as blended learning and flipped classroom.
3. Discuss best practices in technology-enhanced learning

Who should attend?

All Healthcare Professional Educators (doctors, dentists, pharmacists, nurses and allied health professionals) and administrative staff who teach, develop and manage education programmes are welcome to attend.

Participants' Feedback:

"Succinct and focused on what needs to be communicated."

"Trainers are very engaging."

19 April 2022, Tuesday

1:00pm – 5:00pm

(Virtual Face-to-Face Session)

 <p>3 to 5 hours Online Learning via CenMED Scholar https://www.cenmedscholar.nus.edu.sg/</p>	 <p>Virtual Face-to-Face Session via Zoom</p>
