

USE OF PORTFOLIO IN LEARNING AND ASSESSMENT

Course Description

The origin of the word portfolio is interesting. It is the combination of two words: 'portare' which means 'to carry' and 'follium' which means 'leaf/sheet'. Portfolio is a portable and a living document that collects personal and professional goals, achievements, and reflections in a systematic manner. In health professions education, portfolio has been introduced as a learning as well as an assessment tool. It is well-documented that a portfolio is thought to enhance the assessment of areas that are difficult to assess by traditional methods in a wide range of clinical contexts such as attitudes, personal attributes, reflection and professionalism. However, it is not without its challenges.

Workshop Objectives

In this workshop, our aims are to explore portfolio-based learning and assessment in greater details and answer the following critical questions:

- What is portfolio?
- What is the purpose of portfolio?
- How does the purpose of portfolio influence the content and organisation?
- How can portfolio help me to support student learning?
- How can portfolios be used for assessments?

Who should attend?

All Healthcare Professional Educators (doctors, dentists, pharmacists, nurses and allied health professionals) and administrative staff who teach, develop and manage education programmes are welcome to attend.
