

LEADING AND MANAGING IN MEDICAL EDUCATION

Course Description

To effectively manage educational programs requires good leadership and managerial skills. Very often, medical and health professionals and educators are given those roles without adequate training and exposure. This course is to introduce the foundational principles and best practices in managing programs and leading educational development.

Workshop Objectives

At the end of the workshop, participants should be able to:

1. Relate the principles of leadership to one's own educational practice
2. Explain how a leader motivates others to achieve their maximum potential
3. Analyse how leadership styles impact on the quality of output and outcome of a task
4. Apply sound problem solving and decision-making approaches as a leader in a medical education setting.

Who should attend?

All Healthcare Professional Educators (doctors, dentists, pharmacists, nurses and allied health professionals) and administrative staff who teach, develop and manage education programmes are welcome to attend.
