

PERFORMANCE ASSESSMENT IN HEALTH PROFESSIONS EDUCATION (HPE)

Course Description

Assessment serves multiple purposes including ensuring that learning outcomes have met, competency judgment, and certification. Good educational planning and management requires a sound understanding of assessment theories and their application in own context. An educator needs to be proficient in selecting, developing, and implementing commonly used assessment methods in own contexts.

This course is specially designed for medical and health professions educators, leaders and administrative staff who are involved in developing, designing, decision making or providing support to operationalise student/resident assessment.

Workshop Objectives

After this course participants will be able to:

- Calculate common validity and reliability indices for assessment
- Set pass/fail standard using contemporary best evidence standard setting methods in various contexts
- Carry out post-hoc item analyses and interpret them

Who should attend?

All Healthcare Professional Educators (doctors, dentists, pharmacists, nurses and allied health professionals) and administrative staff who teach, develop and manage education programmes are welcome to attend.

8 July 2024, Monday &
9 July 2024, Tuesday
