

Block 1

Engaging Learners from Curriculum to Classroom

Course Description

This block empowers educators to enhance learner engagement by linking curriculum design with effective teaching practices. Using a flipped classroom model, participants engage in self-paced e-learning and hands-on face-to-face workshops. Key topics include outcome-based education, Entrustable Professional Activities (EPAs), and integrating technology into teaching. Educators will develop learning outcomes, design HPE courses, and implement learner-centered strategies, fostering dynamic, impactful classroom experiences that align with contemporary health professions education practices.

Workshop Objectives

1. Apply best evidence practices in designing HPE courses
2. Develop learning outcomes and EPAs
3. Facilitate learner-centred teaching and learning approaches/techniques
