DESIGNING AND IMPLEMENTING EFFECTIVE FACULTY DEVELOPMENT PROGRAMS IN MEDICAL EDUCATION

Zubair Amin

Success of faculty development program depends on careful planning of every stage: from germination of idea to post-program evaluation. This very practical, hands-on workshop intends to provide a step-by-step approach in developing a successful faculty development program in medical education.

This will be an advanced-level workshop with limited number of participants. Each small group will work around a theme. The outcome is to develop a workable plan that is deliverable and impactful.
