

THE FUTURE OF SOCIAL PRESCRIBING

A POLICY DIALOGUE

12 February 2026 (Thursday)
12:00 – 1:30 pm SGT

Zoom

Social prescribing has grown in policy and practice globally. Evidence shows it can improve people's health and wellbeing, but impact at the system-level, such as reducing health resource utilisation, is unclear. This policy dialogue brings together leading international experts, decision-makers and community providers to discuss the future of social prescribing, both in Singapore and internationally. It includes the launch of the Policy Briefing on Social Prescribing from the NUS Centre for Research in Health System Performance.

Chair:

Prof Jose Valderas
Director, NUS CRiHSP

AGENDA

Social Prescribing: The need for an ongoing policy dialogue to inform decision-making and improve the health of the population
Prof Nicholas Goodwin
Visiting Professor, NUS CRiHSP

Social prescribing in Australia: recommendations from the National Feasibility Study
Prof Rosemary Calder and Ms Stella McNamara
Australian Health Policy Collaboration, Victoria University

Implementing social prescribing: lessons from Singapore
A/Prof Lee Kheng Hock
Deputy CEO (Academic Medicine & Community Partnerships),
SingHealth Community Hospitals

Enabling social prescribing in practice: the role of the family physician
Dr Wong Tien Hua
President, College of Family Physicians Singapore
