

Advanced Skills and Techniques for Diagnostic Radiology

SSG-Approved Course: TGS-2021002406

Day 1: 17 Feb 2024 (Sat) | 1.15pm - 6.30pm

Day 2: 18 Feb 2024 (Sun) | 1.45pm - 6.20pm

Venue: NUS Yong Loo Lin School of Medicine, MD 6, Level 1, LT36

The Final Master of Medicine (Diagnostic Radiology) / Final FRCR (Part B) Examination is an intermediate professional examination where local Diagnostic Radiology residents are required to pass as part of their specialty training.

This short course is modelled after the above examination and aims to equip learners with the necessary skills to interpret and report radiological findings from multiple imaging modalities such as X-rays, ultrasound, fluoroscopy, computed tomography, magnetic resonance imaging, nuclear medicine and angiography. Accurate radiological reporting will lead to timely diagnosis and better clinical outcomes for patients.

The skills acquired from the course will help the learners to:

- Improve clinical competency in daily work
- Apply in the Master of Medicine (Diagnostic Radiology) / Final FRCR (Part B) Examination
- Improve their communication skills in multi-disciplinary discussions and meetings

Who Should Attend

- Doctors undergoing training in Diagnostic Radiology (Residents, Resident Physicians & Medical Officers)
- Doctors who have an interest to learn more about Diagnostic Radiology

Prerequisites

- Proficient in English
- Primary medical degree (e.g. MBBS/MD) with prior experience in Diagnostic Radiology
- A pass in First FRCR and Final FRCR (Part A) will be useful
