

RadioPath 2026

1 August 2026, 9.00am - 5pm
NUSS Kent Ridge Guild House,
National University of Singapore

RadioPath is a case-based course series offering unique cross-disciplinary training and education experience on imaging and tissue diagnosis, rotating through the various organ system topics over the years.

Speakers from both Radiology and Pathology will curate and share cases encountered in their multidisciplinary meetings and tumour boards. Participants can scroll through Radiology scans at their own pace and have their questions answered by our radiologist and pathologist speakers.

*With hands on review of radiology scans on your own devices
