

Safety Awareness Game in September 2022

“Puzzle Challenge-Identify the Lab Item!”

The safety committee created a safety awareness game which required the participants to identify close-up photo shots of laboratory items related to biological safety.

This was in line with the Department’s safety and health objectives for 2022 which was “Enhancing Biological Safety in the Labs and to Achieve Zero Medium and High Impact Accidents related to Use of Biologicals.”

The aim was to engage lab staff and students, and create safety awareness on biological safety through fun and games.

The participants consisting of senior lab staff and new staff found the game engaging and enjoyable. They had to work together to look for the biosafety related items in the lab, and new staff had the opportunity to familiarise themselves with some of the biosafety related equipment in the photos. Through this programme, communication and safety culture was strengthened in the labs.

Puzzle Challenge- Identify the Lab Item!

Winners

1st Prize: \$80 Fairprice Voucher

2nd Prize: \$50 Fairprice Voucher

3rd Prize: \$30 Fairprice Voucher

5 Runner-Up Prizes: \$10 Fairprice Voucher

1st Prize Winner
Yew Hui Chuing (Right)

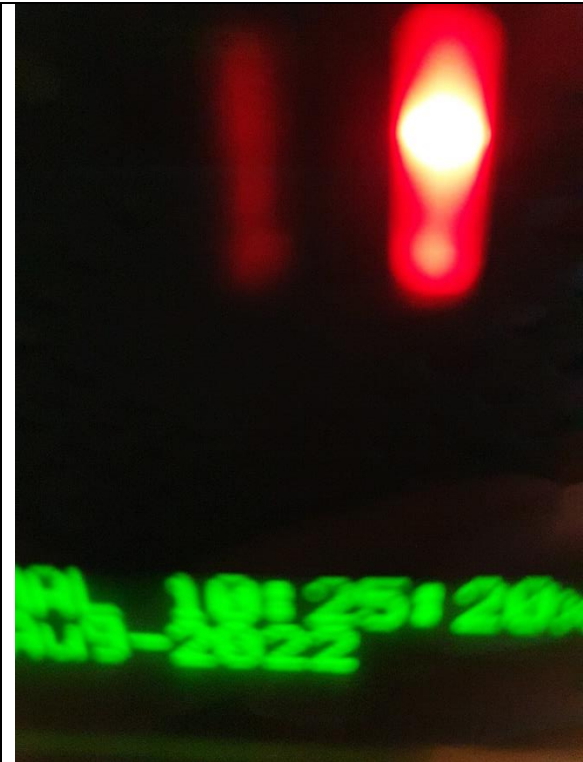

2nd Prize Winner
Wang Juling (Right)

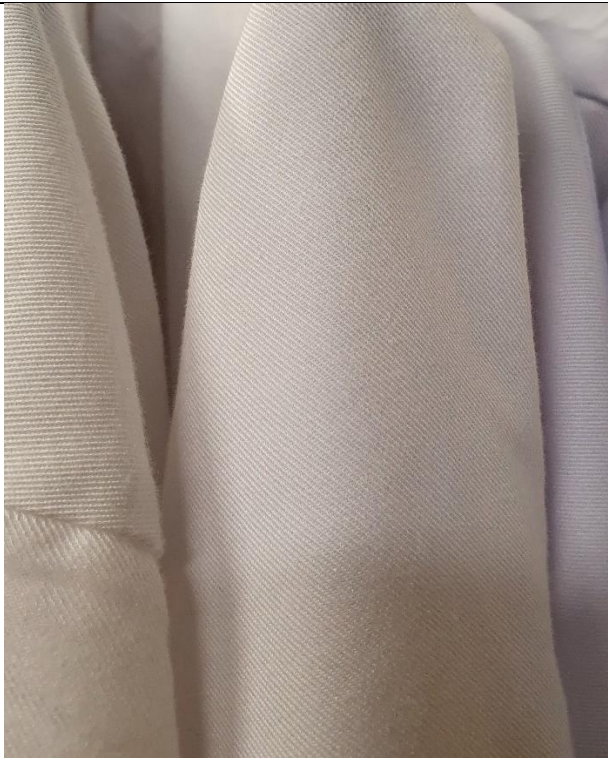

3rd Prize Winner
Samantha Ling (Right)
