

ABOUT

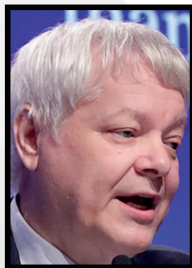

An international conference based on the theme of brain arteriovenous malformations (AVMs), the organising committee envision this hybrid symposium to be instrumental in the education of faculty and residents in Singapore, across Asia and around the world.

We are happy to have presenters from around the world who are leading experts in the field of AVM to share their views and relevant updates in the surgical management of AVMS.

LATEST UPDATES ON BRAIN AVMS BY WORLD'S LEADING EXPERTS!
