MASTER OF MENTAL HEALTH & PSYCHOTHERAPY

This Master's Degree by Coursework is an **applied, skill-based academic training** programme for mental health conditions, psychology interventions, psychotherapy & counselling, and case & care coordination.

It aims to provide higher education and **advanced clinical training** for the growing and evolving post-graduate learning needs of mental health professionals and practitioners in Singapore and the region.

Clinical mental health professionals require a diverse set of therapy skills to effectively address the needs of their clients. The programme encompasses research, screening and assessment for common mental health disorders, cognitive behaviour therapy, interpersonal psychotherapy, mindfulness, parenting, group psychotherapy, social skills training, and behavioural interventions.

The programme consulted industry experts and stakeholders to curate each module to match the National Mental Health Competency Training requirement to practise at Tier 2 and 3 of the Tiered Care Model.

Full-time

1.5 years (3 semesters + summer)

Part-time

2.5 years (5 semesters + 2 summers)

Round 1 applications close: 1 May

Interview period: May - June

Application outcome: July - August

Tuition fees

Self-funded programme

\$65,400 incl. 9% GST

Scholarship

Full and partial scholarships will be awarded to outstanding candidates.

Institutional staff members are encouraged to inquire with their respective organisations regarding their eligibility to access institutional scholarships or fund.

Who is this for?

Social service and healthcare professionals who are seeking to specialise in mental health.

Non-clinically trained individuals may consider the stackable certificates pathway.

*Chargeable at a subsidised rate

“

The programme is comprehensive and excellent for training mental health professionals in delivering tier 2 & 3 services. We have a need for mental health practitioners in the frontlines with the rising prevalence of mental illness.

”

Adj Assoc Prof Daniel Fung

Chief Executive Officer (CEO),
Institute of Mental Health (IMH)

“

A well-designed curriculum on clinical mental health and therapy; an answer to our society's need for more mental health practitioners to be raised to shore up our tiered care in mental health.

”

Mrs Marlene Koh

Head SAF Counselling
Centre, Ministry of Defense
(MINDEF)

3 Curriculum Pillars

The **50-unit course** is delivered by a multi-interdisciplinary faculty, both from within NUS and NUHS, as well as expert practitioners in private practice and social service agencies. The course also invites overseas industry forerunners to give students exposure the latest innovative therapies.

PSYCHIATRY

13 Units

26%

- Understanding mental illness, disorder, and conditions
- Conducting clinical interview and assessment

PUBLIC MENTAL HEALTH

11 Units

22%

- Research methods, statistics, and evaluation
- Epidemiology and public mental health
- Mental health programme development
- Care coordination and case management

PSYCHOLOGY SKILLS

26 Units

52%

- Clinical skills training in psychology, counseling, and psychotherapy includes techniques from cognitive behavior therapy, systemic therapy, and interpersonal psychotherapy
- Workshops with overseas & local industry experts
- Integrative symposiums
- Clinical placement and supervised training

Clinical Placements

Students will have the opportunity to enhance their therapeutic proficiency through our formally organized clinical placement program. This meticulously structured initiative is designed to offer concentrated exposure to two distinct modalities, which encompasses both observation and active participation in sessions led by seasoned clinicians.

Block 1	<ul style="list-style-type: none"> • Low-intensity CBT • General Counselling • Brief Psychotherapy
Block 2	<ul style="list-style-type: none"> • Systemic & Family Therapy

The programme will arrange for students to be placed at

HOSPITAL

Eg. Institute of Mental Health, Khoo Teck Puat Hospital, REACH West (National University Hospital), REACH South

COMMUNITY

Eg. Allkin Singapore Ltd, Care Corner Singapore, Clarity Singapore, Counselling and Care Centre, Shan You Counselling Centre, Viriya Community Services, REACH Community Services

PRIVATE

Eg. Intellect Singapore, Kingsmead Counselling Centre, LivingPath Singapore, Promises Healthcare Pte. Ltd., Samaritans of Singapore (SOS)

“

I believe the Master's program meets the sector's needs, as it seeks a credible and rigorous Master's degree from a reputable university. Organizing the program around mental health would also address the growing needs and complexity of mental health concerns. The wide variety of ideas and specialized intervention modalities offered in this program would be useful in developing clinicians who are much needed in the sector today.

”

Dr Chua Wei Bin

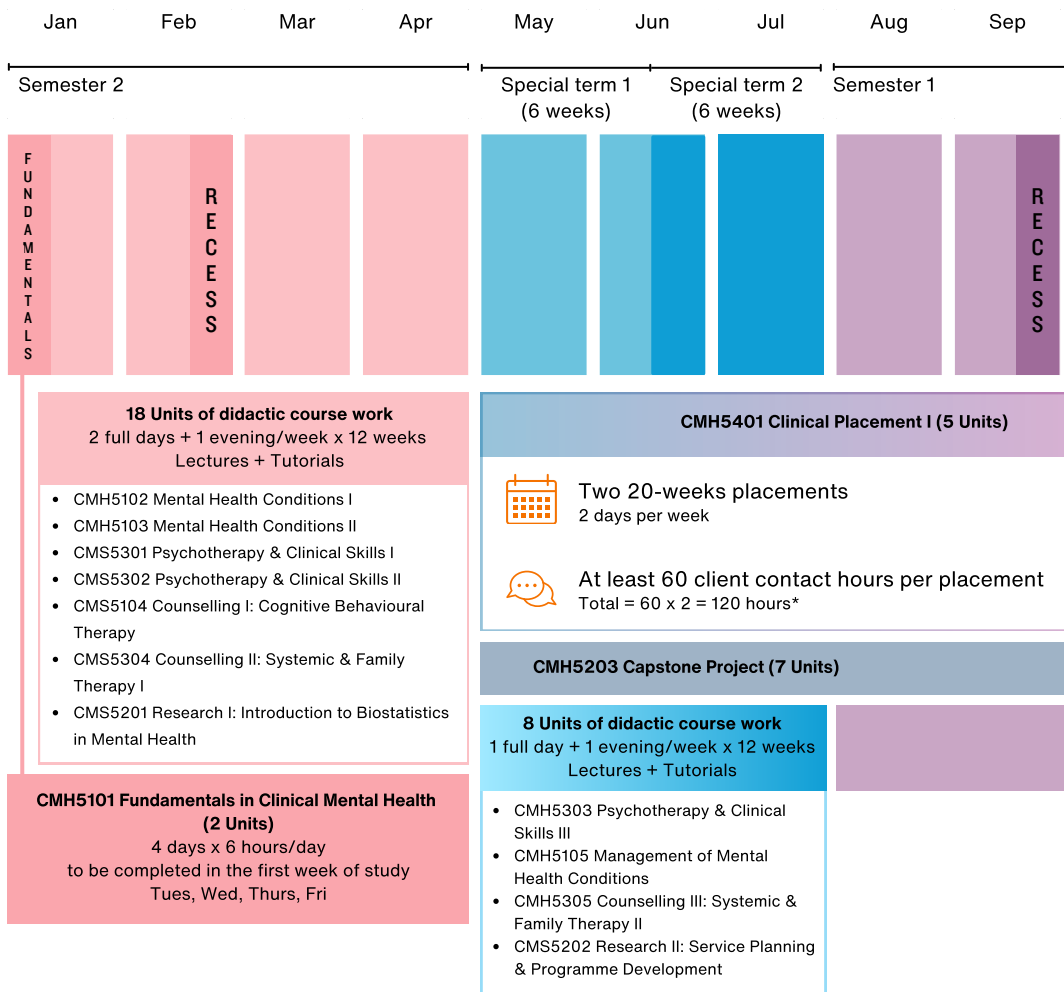

Executive Director,
Counselling and Care Centre

Programme Structure

Students will be taught evidence-based practices and therapeutic skills to provide direct support and design interventions for persons with mental health challenges. Students will be able to detect the mental health needs of patients or clients, provide counselling, stress and anxiety management, social skills training, behaviour management, mental health assessment and psychotherapy, such as cognitive behavioural therapy, systemic therapy and interpersonal psychotherapy.
