

Master of Science (Critical Care Nursing) (MScCCN)

Excel When Every Moment Counts: Transform Critical Care, Transform Lives

The Master of Science in Critical Care Nursing is designed for practising nurses with a Bachelor's degree who want to specialise and lead in critical care. This work-study programme blends theory, clinical immersion, leadership training, research, and infection control, equipping nurses with advanced skills to deliver high-quality care and drive change in critical care. With training focused on hands-on experience and inter-professional collaboration, graduates will be prepared to mobilise teams and optimise patient outcomes in critical care settings.
