**REGISTER BY
5 JULY 2021**

Organised by the NUS Yong Loo Lin School of Medicine, Department of Anatomy and Ng Teng Fong General Hospital Division of Neurosurgery, this upcoming one-day workshop will enable neurosurgery residents/trainees to enhance their knowledge of surgical anatomy through cadaveric dissections in a guided and safe environment. Participants of this course will have access to fresh frozen cadavers to practise their surgical skills and learn from surgical mentors under direct supervision.

As a participant, you will:

- Learn basic anatomy principles
- Develop and improve knowledge and skills in dissection
- Bridge basic anatomical understanding with clinical applications in the field of neurosurgery
- Build a strong foundation for safe surgical practice
